NEW ENTRY

1383

DESCRIPTION The compact version of the Rallye 4000 is designed for vehicles where the Rallye 4000 would not fit due to smaller installation space. The technology is equal to the large versions, the compact series provides the same stability and durability as the classic models, with comparable light output. The Rallye 4000 compact Xenon with integrated ballast can be installed upright at an angle of +7° to -7°.
