LED Lighting Solutions for the Transport Sector

Welcome - Willkommen - Bienvenue - Benvenuto - Bienvenido

HELLA-New Zealand Limited

HELLA-New Zealand's brand new international catalogue offers a comprehensive range of innovative LED lighting solutions for the transport sector.

Since the launch of our first LED automotive signal lamps in 1990, HELLA Design and Innovation continues to set new standards. HELLA innovative solutions have been incorporated into millions of lamps, engineered and tested to the most stringent standards, to suit the most demanding environmental conditions.

So when you select original parts with the HELLA label, you know that functional safety, a perfect fit and product durability are guaranteed.

HELLA INTRODUCTION

ABOUT US

HELLA New Zealand strives to provide world-class products that contribute to the safety of the automotive and transport industry through enhanced vision and visibility.

HELLA-New Zealand Limited

HELLA-New Zealand Limited was founded in 1973 to manufacture, market and distribute products in New Zealand. Today the company designs and manufactures innovative lighting products for the commercial transport and automotive industries, using the latest LED (Light Emitting Diode) technology. With these products HELLA New Zealand is a supplier to automotive manufacturers and commercial transport fleets all over the world. HELLA is a prominent brand in the New Zealand aftermarket and in the commercial transport sector, with key relationships with original equipment bus, coach and trailer manufacturers.

HELLA New Zealand's range of export products include the following:

- LED Driving Lights
- LED Marker and Signal Lamps
- LED Daytime Running Lamps
- LED Interior/Exterior Lighting
- LED Signal Warning Lamps
- LED Work Lamps
- Accessories

HELLA International

The history of HELLA is inextricably linked to the development of the automobile. Registered in June 1899, in Lippstadt, Germany, the company has grown due to entrepreneurial boldness and foresight, developing innovative products and processes, a committed workforce and by a customer-focused approach.

HELLA International represents the worldwide HELLA organisation. This includes all HELLA production facilities, research and development, original equipment and aftermarket sales and trading companies with over 34,000 employees.

With over 125 manufacturing facilities, subsidiaries and joint ventures located in more than 35 countries, the company group is a global-operations partner to the motor industry.

Sales companies and partners worldwide supply automobile manufacturers and the specialised trade around the globe.

HELLA International consists of three regions:

- Europe
- Americas (NAFTA, South America)
- Asia-Pacific

HELLA Catalogue extracts from 1929/30

Customer Service

HELLA backs up its products with a dedicated customer services team that can advise customers on product availability, product selection, installation and delivery.

The advantage of manufacturing a large percentage of our products locally; for both local customers and a large overseas client base, allows for a high degree of flexibility and customisation unmatched in the New Zealand automotive industry, thus our order fill rate ranks consistently among the highest in the industry.

HELLA customer service provides customers with 'best fit' solutions based on sound professional knowledge and experience in the commercial transport sector. With access to a wide global database within the HELLA group, customer service is the recommended first stop for any customer inquiries.

ISO Certification

HELLA-New Zealand Limited is certified to the International quality standard ISO 9001:2008 for 'The Design and Manufacture of Automotive Lighting and Signalling Equipment, General Lighting, Optical Products and Plastic Components. The Design and Manufacture of Marine Navigation Lighting, General Lighting, LED Based Lighting and Associated Electronic Control Units'.

HELLA New Zealand has for over 20 years adopted the entrepreneurial spirit of its founders and developed into a LED lighting technology company with comprehensive in-house design and manufacturing facilities.

Warranty - Standing Behind Our Product

All LED based lighting products supplied by HELLA-New Zealand Limited carry a 5-year warranty from end user purchase covering faults in materials, components or workmanship.

In the unlikely event that you should experience a confirmed warranty related problem with a HELLA product, our commitment to your satisfaction ensures that HELLA will, at our discretion, either repair or replace the product or refund the purchase price.

Warranty services may be obtained by returning the product within the warranty period to the HELLA Dealer where the product was originally purchased.

THIS WARRANTY DOES NOT COVER:

- Claim/s as a result of normal wear and tear, any modifications, alterations, non-compliance of assembly, service and operating instructions and/or any unfit or improper use.

HELLA LIGHT EMITTING DIODE (LED) LAMP TECHNOLOGY

Our expanding range of LED based marker and signal lamps has been accepted as the most advanced lighting solutions to lower maintenance costs of commercial transport fleets and operators.

Since the launch of our first LED signal lamps in 1990, our innovative designs have set new standards and received considerable worldwide recognition. For over two decades we have refined our designs and developed production technologies now used in millions of lamps, all engineered and tested to the most demanding standards.

Our local research, product development and production facilities have allowed us to respond quickly to market feedback from New Zealand and Australian manufacturers of transport equipment as well as many discerning Fleet Operators.

Their input has been invaluable and ultimately helped New Zealand manufactured LED technology products to succeed in world markets.

Superior Lens and Optic Materials

The majority of HELLA DuraLED and EuroLED lamps are produced using extra thick acrylic lenses – providing an ultra long term lighting solution and environmentally friendly choice.

For all commercial transport applications, HELLA recommends our hermetically sealed marker and signal lamps manufactured with a specially formulated enhanced high impact acrylic that has superior resistance to most commonly used wash and cleaning liquids.

In 2009 HELLA took the design and development of ultra durable lighting solutions to a new level by specifying the Swiss made high tech material Grilamid® for some selected applications. Grilamid® has quickly become the material of choice for operators of equipment exposed to very high vibration and impact conditions.

Left: Automated robotic manufacturing.
Below: In-house design and thermal imaging camera testing.

UV Resistance

Some regions of the world are exposed to some of the highest and harshest UV radiation. Most consumers will have purchased and experienced products made from plastic materials that deteriorate, fade and often become brittle very quickly when exposed to the sun.

Most of the LED lighting equipment we supply is likely to be continually exposed to this harsh environment. Our Grilamid® or high-impact acrylic LED lamps are designed to withstand the harshest environmental conditions and to tolerate long term exposure to high UV levels without fading or embrittlement.

Fit and Forget by Design

What it means for you.

**FIT &
FORGET**
BY DESIGN

Fit and Forget by Design is not just a marketing slogan, it is a philosophy adopted by our design team in 1998 when HELLA New Zealand designed our first DuraLED Signal Lamp for the commercial transport sector.

To create lamps that will function faultlessly for the vehicle life and beyond requires dedication to excellence and the most rigorous, verified test regime. Extensive consultation with our most discerning industry partners were conducted, followed by months of field tests before the first DuraLED was ever sold to a customer. Over the past 19 years the same team of dedicated perfectionists have continuously improved the latest designs from ongoing research and market experience.

Material selection, LEDs, optics, drive electronic, circuit protection, design of the sealing geometries, rigidity versus deliberate flexibility of the mounting system all work in harmony to create a product of truly lasting value and safe operation. Fit and Forget by Design is your peace of mind of purchasing a product which is designed to stand the test of time, without compromise.

Automated packaging.

WORLD LEADING AUTOMOTIVE LIGHTING

Expertly designed and precision manufactured for visibility and safety.

DuraLED

HELLA's growing range of DuraLED lamps, incorporating the latest LED technology, has proven to be the superior economic and environmental choice for transport operators in New Zealand. DuraLED has a track record to last the distance. The first DuraLED lamps were supplied in 1998, some 19 years ago and are still in use today.

DuraLED lamps offer distinctive designs with shallow shapes and concealed mounting screws for enhanced protection against damage. Most marker and signal lamps are pre-wired with sheathed multi-core cable, fully sealed against dust and moisture to International Protection Standards IP 6K6/IP 6K7, and compliant with current UNECE or SAE regulations. HELLA's innovative DuraLED lamps are designed for use on trucks, buses, caravans, emergency vehicles and speciality applications.

The range includes marker lamps, direction indicators, end outline lamps, position lamps, high intensity warning signal lamps and a combination stop/rear position/indicator lamp range incorporating special ultra wide optics for enhanced visibility.

EuroLED

The EuroLED marker and signal range of LED lamps harness the benefits of a single high intensity LED. The use of precision optics give the EuroLED lamp a unique look along with the benefits of low power consumption. EuroLED marker and signal lamps feature a shallow design and special ultra wide optics for significantly improved side visibility. EuroLED lamps are also shockproof and fully sealed to withstand temporary water submersion and high-pressure washing, ensuring long service life and durability. EuroLED lenses are made from specially formulated high impact acrylic with enhanced chemical resistance.

LED Multivolt

One of the leading advantages of HELLA's LED technology is the Multivolt circuitry fitted to most of our LED lamps, ensuring a uniform level of intensity and optimum brightness.

Multivolt LED lamps can be connected to either 12 or 24 volt DC electrical systems. The light performance will not be adversely affected by voltage drop over long cables and corroded connectors. LED lamps fitted with Multivolt circuitry are clearly marked throughout the catalogue.

RFCCommSafe

RFCCommSafe products were developed in recognition that some radio communication equipment can be very sensitive in remote areas. RFCCommSafe products are designed to ensure no interference with any other electronic equipment.

LED Active

LED lamps with active circuitry are designed for a single voltage and can only be connected to a 12V or 24V DC electrical system.

The circuitry is designed to ensure a uniform level of intensity and full light output over a small range above and below the design voltage of the lamp. The light performance will not be adversely affected by voltage drop over long cables and corroded connectors.

LED Passive

LED lamps with passive circuitry are designed for a single voltage and can only be connected to a 12V or 24V DC electrical system.

The circuitry does not regulate the LED current so the light output increases proportionally with the supply voltage. The light performance will be adversely affected by voltage drop over long cables and corroded connectors.

HCS (HELLA Compatibility Solution)

Vehicles operating on public roads may require the direction indicator lamps to be monitored for correct function. When a 21 watt bulb based lamp is exchanged with an LED lamp, some flasher units will not recognise this LED lamp because of its low power consumption and indicate a bulb failure. Many transport fleets will operate trucks/trailers which can feature a mixture of bulb based direction indicator lamps and low power consumption LED direction indicator lamps.

In 1999 HELLA New Zealand designed the HELLA Compatibility Solution (HCS) to offer seamless compatibility between conventional bulb based lamps and HCS equipped LED lamps. The HCS control unit recognizes either a standard bulb lamp or an HCS LED lamp or a mixture thereof, and continues to work normally, without triggering the bulb failure warning function. This technical solution has become the ISO Standard 13207-1 which is being incorporated into the body electronic of European Trucks. Astute fleet operators today specify LED lamps designed to ISO Standard 13207-1 to ensure the future-proofing of their fleet. (See further details on page 10).

PA

Grilamid® is a high-performance polyamide (PA) developed and manufactured in Switzerland, and is a revolutionary new transparent plastic with exceptional properties.

Grilamid® long-term resistance to UV degradation matches our impact enhanced acrylic used in most HELLA LED lamps. Grilamid® is characterised by very high impact and fatigue strength with resistance to chemicals and stress cracking.

HELLA New Zealand has benchmarked Grilamid® as the ideal lens material for lighting applications exposed to stone impact and very rough environments. Grilamid® is not a commodity material and was developed for demanding applications such as medical apparatus, sight glasses and high value shatterproof sunglasses. The application of Grilamid® for optical lenses on ultra durable transport lighting LED lamps is unique in the world.

For many years HELLA New Zealand has concentrated on the development, manufacture and export of ultra durable LED lamps. Locally manufactured lamps using this Swiss made material places these products again well ahead of the competition.

The exceptional properties of Grilamid® are exactly what is required in heavy duty commercial transport lighting applications, offering excellent transparency (similar to glass), high strength and impact resistance against stone damage, UV and chemical resistance.

Grilamid® is a registered trademark of EMS-CHEMIE AG.

PMMA

The subject of acrylic (PMMA) lenses versus polycarbonate (PC) is frequently raised by the industry.

For most commercial transport applications HELLA chooses to manufacture sealed LED lamps from a specially formulated high impact acrylic with enhanced chemical resistance. Our specially formulated high impact acrylic offers many advantages:

- Ultra long-term resistance against fading and UV damage, and enhanced chemical resistance, including all commonly used wash liquids, and more.

Refurbish instead of Recycle

In a world consuming resources at an ever faster rate, HELLA LED lamps manufactured with enhanced impact acrylic or Grilamid® are a truly long-term investment.

Acrylic and Grilamid® lamps can be polished to look like new.

Both these materials can be refurbished to near new condition by polishing out fine scratches and road grime. As illustrated in the photograph a DuraLED with several years of active high mileage road use can be refurbished to pristine near new condition.

Due to the properties of polycarbonate, refurbishing by polishing is not a viable option.

PC

Lamps featuring polycarbonate lenses, are for use in very high impact situations and they have a high resistance to stone damage. However polycarbonate has a lower tolerance to certain chemicals and aggressive cleaning fluids.

This makes lamps made with PC lenses sensitive to chemical attack, some industry warranty statements even go as far as prohibiting liquid washing detergents.

In addition, polycarbonate lenses are susceptible to UV attack and they will fade and become brittle under long term exposure to high UV levels.

Ultra Wide Visibility Optics

HELLA continues to increase its range of LED signal lamps that incorporate Ultra Wide Visibility Optics. LED lamps strictly designed to minimum legal requirements in the horizontal +/-10 to +/-45 degree field suffer from signal fade and become less visible in bright sunlight. By incorporating Ultra Wide Visibility Optics, HELLA LED signal lamps are much more noticeable to following drivers particularly as the vehicle in front turns and the LED stop or turn signal is viewed from the side.

HELLA LED signal lamps, incorporating Ultra Wide Visibility Optics, far exceed the minimum legal brightness requirement beyond the +/-10 degree horizontal angle. These lamps provide a significantly enhanced stop and turn signal to the driver of the following vehicle.

These lamps are clearly marked throughout the catalogue.

GGVS/ADR Regulation

Lamps with this symbol are approved for mounting on transport equipment which corresponds to the requirement of GGVS/ADR.

GGVS/ADR = Regulation for on-road transportation of hazardous goods.

Enhanced Definition Technology (EDT)

A stop lamp has to be instantly recognised as a warning signal. To further enhance recognition, an increase in the illuminated area (compared to the tail lamp) is combined with an increase in intensity. As a result, the illuminated area gets larger and brighter on an EDT lamp for increased safety and awareness.

Electromagnetic Compatibility (EMC)

HELLA LED lamps are electronic devices. The electrical circuits contain components that have been optimised to suppress possible interference, both emission as well as susceptibility.

Protection Against Damage Due to Voltage Spikes

Lamps are protected against reverse polarity connection and voltage spikes.

HELLA Compatibility Solution (HCS)

The trailer solution today for the trucks of tomorrow. Direction indicator lamp monitoring which is fully compliant with international standard ISO 13207-1.

Vehicles being driven on public roads may require the operation of the direction indicator lamps to be monitored and a fault instantly signalled to the driver. Direction indicator lamps are an important road safety feature signalling the direction change intention of the driver. Failure to signal or failure to recognise a direction indicator represents a significant cause for road accidents.

In many countries, LED direction indicator lamps offering a reliable Fit and Forget solution, have become the retrofit item of choice for the cost conscious transport operator. LED lamps, with much lower power consumption and Multivolt features, are often a challenge for existing failure detection control electronics of modern trucks and buses. Transport fleets often feature a mixture of trailer units equipped with either bulb or LED based direction indicator lamps. Each of these trailer units ideally must be freely interchangeable with any of the truck units in the fleet, including those with 12V or 24V systems.

Some manufacturers recommend to fit additional resistive loads in parallel to the LED lamps to simulate the 21 watts consumed by a bulb lamp. Such pure resistive load solutions can be problematic for the following reasons:

1. They mask the possible failure of the actual LED indicator lamp itself.
2. In many cases such pure resistive solutions do not function since they only provide a linear time/current response which is significantly different to the time/current response of a bulb filament when it heats up.
3. They consume a lot of energy and thus eliminate the desired lower power advantage of an LED lamp.

Safe conversion to LED direction indicator lamps is now possible with the patented HCS HELLA Compatibility Solution.

HELLA supplies electronic control and flasher units which make it possible to convert the indicator failure display for various vehicles. This is necessary if the vehicle manufacturer does not guarantee indicator bulb failure control via the vehicle wiring system. The solution has been patented by HELLA. Currently, there is one control and four different LED/bulb compatible flasher units available.

The innovative patented design makes the reliable, problem free conversion to HELLA LED based indicator lamps possible.

LED lamps listed in this catalogue marked with the HCS symbol feature the patented control technology HCS (HELLA Compatibility Solution) which allows seamless communication with the HELLA HCS control flasher units.

2BA 959 011-301

2SD 959 050-401

2BE 959 932-151

2BA 980 607-001

2BA 959 822-601

LED LAMPS marked with the HCS symbol feature patented indicator failure control technology which allows seamless communication with HELLA HCS control flasher units, or modern European trucks with body controllers compliant with the ISO 13207-1 standard.

4DN 009 492-101* HCS Flasher Unit

5DS 009 602-001* Control Unit 24V

5DS 009 552-011* HCS Control Units 24V

1. **Vehicles with Flasher Unit**

HCS LED/Bulb compatible indicator flasher units for industry standard configurations.

For all other vehicles, where an independent HELLA flasher unit can be fitted, a number of HCS flasher units are offered, covering most transport industry common lamp combinations.

2. **Vehicles that use the cold scan for indicator failure control.**

Description of fault indication: Is a faulty lamp indicated when; a) the ignition is switched on, b) directly when the fault occurs, or c) when the bulb is screwed out without the indicator being triggered?

Solution: Simulation device for cold scan P/N: 5DS 009 602-001*.

3. **Vehicles without flasher unit that carry out current measurement for the failure check.**

HCS LED indicator outage monitoring unit with 21 watt bulb current simulation.

Part number 5DS 009 552-011* is the more costly solution to be used for trucks with factory supplied fully integrated indicator control electronics.

In combination with trucks/trailers fitted with HELLA HCS LED indicator lamps, the control unit simulates the time/ current response of an incandescent bulb.

The HELLA HCS LED indicator lamp contains self diagnostics, when the lamp detects a fault this is communicated to the control unit which subsequently suppresses the signal to the truck control electronics.

Description of fault indication: A fault is determined during the flashing operation (e.g double flashing frequency).

- For 24V trailers P/N: 5DS 009 552-011*
- No separate power supply necessary
- Protective category IP 6K9K protection against dust and high pressure/steam jet cleaning.

HCS flasher unit 12V 2+1+1

P/N: 4DN 009 492-101*

HCS flasher unit 24V 2+1

P/N: 4DM 009 492-001*

HCS flasher unit 24V 3+1

P/N: 4DW 009 492-011*

HCS flasher unit 12V 3+1

P/N: 4DW 009 492-111*

* These products are not supplied by HELLA-New Zealand Limited. For further information on these products please contact HELLA KGaA Hueck & Co.

Enclosure Protection

International Protection Rating (IP)

Example:

TABLE 1	
Protection against the ingress of solid foreign objects (including dust)	
X	Not tested
0	Not protected
1	Solid foreign objects $\varnothing \geq 50$ mm
2	Solid foreign objects $\varnothing \geq 12.5$ mm
3	Solid foreign objects $\varnothing \geq 2.5$ mm
4	Solid foreign objects $\varnothing \geq 1.0$ mm
5 and 5K	Dust protected
6 and 6K	Dust tight

Decoding ECE Symbols

Key to decoding the combinations of numbers and letters on marker and signal lamps.

The most frequent codes used in 37 countries which approve headlamps and combination rear lamps according to ECE regulations are as follows:

E1	→ Germany
E2	→ France
E3	→ Italy
E4	→ Netherlands
E5	→ Sweden
E6	→ Belgium
E7	→ Hungary
E8	→ Czech Republic
E9	→ Spain
E10	→ Serbia and Montenegro
E11	→ United Kingdom
E12	→ Austria
E13	→ Luxembourg
E14	→ Switzerland
E24	→ Ireland

Combination rear lamp versions:

A	→ Marker lamp
AR	→ Reversing lamp
F	→ Rear fog lamp
IA	→ Reflex reflector
R	→ Tail-lamp
S1	→ Stop lamp
1, 1a, 1b:	→ Front flasher lamp (various technical versions)
2a	→ Rear flasher lamp
5	→ Repeater flasher lamp (for vehicles up to 6 metres long)
6	→ Repeater flasher lamp (for vehicles longer than 6 metres)
SM1	→ Side marker lamps (for all vehicles)
SM2	→ Side marker lamps (for vehicles with length up to 6 metres)
RL	→ Daytime running lamps

Symbol and Marking Location on Marker and Signal Lamp

R-S1

**LED Light Bar 350
- Plastic Bracket**

This innovative, light weight HELLA LED Light Bar is the first such lamp with a body manufactured entirely from non corrosive, thermally conductive high performance plastics. This aerodynamic powerhouse features 12 durable high performance automotive grade LED's and a maximum luminous intensity of 145,000 candela with a mere power consumption of only 25 watts.

The dust and waterproof Light Bar comes in two different beam patterns – High Beam (Ref 20 with 1 lux at approx. 320 metres) and Pencil Beam (Ref 30 with 1 lux at approx. 380 metres).

The hermetically sealed and submersible light bar features a Multivolt circuit for optimum brightness at input voltages from 9 to 33 volts, is fully road legal with ECE approval and comes with a comprehensive 5 year warranty.

Part Number	1FJ 958 040-001 (High Beam)	REF. 20
	1FJ 958 040-051 (Pencil Beam)	REF. 30
Mounting	Upright or pendant.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	25W	
Maximum Luminous Intensity	1FJ 958 040-001: 96,000 candela 1FJ 958 040-051: 145,000 candela	
Protection	Reverse polarity and transient spike protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of tinned multi-core cable.	
Approval Markings	(E4) 10R 04-2909 1FJ 958 040-001: (E24) 0008 1FJ 958 040-051: (E24) 0009	
Contents	1 x LED Light Bar 350	2 x Plastic mounting brackets 1 x Instruction booklet

Single plastic mounting bracket - Disassembled view

Mounting brackets allow rotation of driving light.

Mounting brackets can be positioned to suit most vehicle installations.

Beam Pattern - Recorded with one lamp. Distance in metres.

ECE APPROVED LED LAMPS

LED Light Bar 350 - HD Bracket

This innovative, light weight HELLA LED Light Bar is the first such lamp with a body manufactured entirely from non corrosive, thermally conductive high performance plastics. This aerodynamic powerhouse features 12 durable high performance automotive grade LED's and a maximum luminous intensity of 145,000 candela with a mere power consumption of only 25 watts.

The dust and waterproof Light Bar comes in two different beam patterns – High Beam (Ref 20 with 1 lux at approx. 320 metres) and Pencil Beam (Ref 30 with 1 lux at approx. 380 metres).

The hermetically sealed and submersible light bar features a Multivolt circuit for optimum brightness at input voltages from 9 to 33 volts, is fully road legal with ECE approval and comes with a comprehensive 5 year warranty.

Beam Pattern - Recorded with one lamp. Distance in metres.

ECE APPROVED LED LAMPS

**LED Light Bar 470
- HD Bracket**

The longer and brighter LED Light Bar 470 features all the outstanding properties of the LED Light Bar 350 but with an additional four high performance automotive LED's and a maximum luminous intensity of 166,000 candela at a power consumption of only 35 watts.

The dust and waterproof Light Bar comes in two different beam patterns – High Beam (Ref 25 with 1 lux at approx. 330 metres) and Pencil Beam (Ref 37.5 with 1 lux at approx. 410 metres). With only 950g weight the Light Bar is particularly popular for roof mount applications on ATV's and Off-road vehicles. The non corrosive, thermally conductive housing is highly resistant to degradation and due to its slim profile, this streamline Light Bar is ideal for applications where aerodynamic styling are a valued attribute. The flexible, adjustable mounting system ensures easy installation.

The Light Bar 470 features a Multivolt circuit for optimum brightness at a wide range of input voltages from 9 to 33 volts and is fully road legal with ECE approval.

Part Number	1FJ 958 130-111 (High Beam)	REF. 25
	1FJ 958 130-011 (Pencil Beam)	REF. 37.5
Mounting	Upright or pendant.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	35W	
Maximum Luminous Intensity	1FJ 958 130-111: 113,000 candela 1FJ 958 130-011: 166,000 candela	
Protection	Reverse polarity and transient spike protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of tinned multi-core cable.	
Approval Markings	E24 10R 05-1947 1FJ 958 130-111: E24 0012 1FJ 958 130-011: E24 0013	
Contents	1 x LED Light Bar 470 2 x HD mounting brackets 1 x Instruction booklet	

Single HD mounting bracket - Disassembled view

Mounting brackets can be positioned to suit most vehicle installations.

Beam Pattern - Recorded with one lamp. Distance in metres.

LED Light Bar - HD Single Bracket Kit

These easy to install universal bracket kits made to suit the LED Light Bar range and can be mounted upright or pendant to accommodate most vehicle installations. The smooth brackets simply clip onto the ends of the light bar. The nuts, bolts and mounting brackets are made from marine grade 316 stainless steel and come with anti-theft screw caps.

Part Number	8HG 958 139-841	
Kit Includes	2 x Stainless Steel Mounting Feet 2 x Stainless Steel M8 x 20mm Cap Screws 2 x Stainless Steel M8 Nylon Lock Nuts 2 x End Adaptors	2 x Friction Washers 2 x End Clamps 2 x Screw Caps

HD Single Bracket Kit + LED Light Bar 350

Mounting brackets can be positioned to suit most vehicle installations.

LED Light Bar - HD Double Bracket Kit

Part Number	8HG 958 139-851	
Kit Includes	2 x Stainless Steel Double Mounting Feet 4 x Stainless Steel M8 x 20mm Cap Screws 4 x Stainless Steel M8 Nylon Lock Nuts 4 x End Adaptors	4 x Friction Washers 4 x End Clamps 4 x Screw Caps

Beam Patterns - Recorded with two lamps. Distance in metres.

LED LIGHT BAR 350

Mounting brackets allow rotation of Light Bar.

LED LIGHT BAR 470

HD Double Bracket Kit + 2 x LED Light Bar 350

83mm Round LED Front Direction Indicator/Front Position/Daytime Running Lamp

ECE certified LED front direction indicator/ front position/daytime running lamp with clear lens. Specifically designed for commercial transport applications. Equipped with high efficacy white LED for low power consumption and acrylic lens for superior UV and impact resistance. Direction indicator optic appears clear until illuminated. Each of the lamp versions has different in-built operation logic that are defined to suppress the DRL during the indicator flasher cycle and suit most vehicle installations with or without an additional DRL feed.

83MM LED LAMP FUNCTIONS

Daytime running lamp

Additional in-built operation logic options are available upon request.

Low Beam

Designed to light the road at night without causing glare to other road users.

HELLA LED Daytime Running Lamps

Designed to increase the visibility (conspicuity) of your vehicle during daytime.

83mm Round LED Front Direction Indicator/Front Position Lamp

ECE certified LED front direction indicator/ front position lamp with clear lens. Specifically designed for commercial transport applications. Equipped with LEDs for low power consumption and acrylic lens for superior UV and impact resistance. Direction indicator optic appears clear until illuminated.

Part Number	2BE 980 691-301		2BE 980 691-307 (Pack of 10)		12 VOLT
	2BE 980 690-301	2BE 980 690-307 (Pack of 10)			24 VOLT
Mounting	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.				
Power Consumption			12V	24V	
	Front indicator:		3W	4W	
	Front position:		1W	1W	
Protection	Reverse polarity, spike and over voltage protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning)				
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.				
Approval Markings	E24 5854		E4 10R 04-2907		

83MM LED LAMP FUNCTIONS

Front position

Direction indicator

83mm Round LED Daytime Running Lamp

ECE certified LED DRL. The lamp features a traditional round lens that illuminates with a distinctive ring of white LEDs when used as a DRL.

Part Number	2PT 980 691-601	12 VOLT
	2PT 980 690-601	24 VOLT
Mounting	Single bolt 1/4" stainless UNC thread. Nut and washer supplied.	
Power Consumption	4W	
Protection	Reverse polarity, spike and over voltage protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E24 5854 E4 10R 04-2907	

Daytime Running Lamp

83mm Round LED Stop/Rear Position/Rear Direction Indicator Lamp

83mm diameter round LED lamp with single bolt mount.

Part Number	2SD 959 010-201	2SD 959 010-207 (Pack of 10)
	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	Multivolt for optimum brightness in 12 and 24 volt systems.	
Power Consumption	Stop: 3W Rear position: 1W Rear indicator: 3W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E9 1538 E4 10R 04-2741	

83mm Round LED Stop/Rear Position/Rear Direction Indicator Lamp - 24 Volt

83mm diameter round LED lamp featuring HCS technology with a single bolt mount.

Part Number	2SD 959 010-401	2SD 959 010-407 (Pack of 10)
	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	24V DC	
Power Consumption	Stop: 2W Rear position: <1W Rear indicator: 2W	
Protection	Same as per P/N 2SD 959 010-2xx	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E9 1538 E4 10R 04-2741 ISO 13207-1	

Lamp only compatible with 24V DC HCS units

ECE APPROVED LED LAMPS

83mm Round LED Stop/Rear Position Lamp

83mm diameter round LED lamp with single bolt mount, featuring Enhanced Definition Technology (EDT).

Part Number	2SB 959 010-001	2SB 959 010-007 (Pack of 10)
Mounting	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	Stop: 3W Rear position: 1W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E4 11391 E4 10R 04-2741	

83mm Round LED Rear Direction Indicator Lamp

83mm diameter round LED lamp with single bolt mount.

Part Number	2BA 959 011-001	2BA 959 011-007 (Pack of 10)
Mounting	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	2W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E4 11391 E4 10R 04-2741	

83mm Round LED Stop/Rear Position Lamp - 24 Volt

83mm diameter round LED lamp featuring 12 LEDs and a single bolt mount for trucks, buses, caravans and trailers.

Part Number	2SB 959 010-301	2SB 959 010-307 (Pack of 10)
Mounting	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	24V DC	
Power Consumption	Stop: 3W Rear position: 1W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E4 12373 E4 10R 04-2741	

ECE APPROVED LED LAMPS

83mm Round LED Rear Direction Indicator Lamp - 24 Volt

83mm diameter round LED lamp featuring 12 LEDs, HCS technology and a single bolt mount for trucks, buses, caravans and trailers.

ECE APPROVED LED LAMPS

Part Number	2BA 959 011-301	2BA 959 011-307 (Pack of 10)
Mounting	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	24V DC	
Power Consumption	3W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	(E4) 12373	(E4) 10R 04-2741 ISO 13207-1

Lamp only compatible with 24V DC HCS units

83mm Round LED Reversing Lamp

83mm diameter round LED lamp with single bolt mount.

Part Number	2ZR 959 010-501	2ZR 959 010-507 (Pack of 10)
Mounting	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	4W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	(E4) 11391	(E4) 10R 04-2741

83mm Round LED Rear Fog Lamp

83mm diameter round LED lamp with single bolt mount. Optic appears clear until illuminated.

Part Number	2NE 959 011-501	2NE 959 011-507 (Pack of 10)
Mounting	Single bolt 1/4" Stainless UNC thread. Nut and washer supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	3W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	(E4) 11391	(E4) 10R 04-2741

Fog lamp lens is clear when not active.

LED Front Direction Indicator Lamp - Surface Mount

Surface mount LED front direction indicator lamp that is designed with an ultra wide visibility optic for significantly improved side visibility. Featuring a low profile, ultra durable Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Optic appears clear until illuminated.

Ultra slim height of only 11mm. Lamp shown active.

Part Number	HORIZONTAL MOUNT	VERTICAL MOUNT	
	2BA 980 888-311	2BA 980 888-411	2BA 980 888-511
		2BA 980 888-611	24 VOLT
Mounting	Suitable for horizontal or vertical mounting with tolerance. See diagrams.		
Power Consumption	3W		
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)		
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.		
Approval Markings	Horizontal E24 5869	Vertical E24 5890	E4 10R 04-2910

LED Rear Direction Indicator Lamp - Surface Mount

Surface mount LED rear direction indicator lamp that is designed with an ultra wide visibility optic for significantly improved side visibility. Featuring a low profile, ultra durable Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Optic appears clear until illuminated.

Ultra slim height of only 11mm. Lamp shown active.

Part Number	2BA 980 888-011	12 VOLT
	2BA 980 888-211	24 VOLT
Mounting	Suitable for horizontal and vertical mounting with tolerance. See diagram.	
Power Consumption	3W	
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E24 5891	E4 10R 04-2910

MOUNTING DIAGRAMS

Horizontal mount: +/- 45° rotation around lamp (and vehicle) axis

Vertical mount: +/- 45° rotation around lamp (and vehicle) axis

Horizontal mount & Vertical mount: 360° rotation around lamp (and vehicle) axis

Part Number	2SB 980 887-011	12 VOLT
	2SB 980 887-211	24 VOLT
Mounting	Suitable for horizontal and vertical mounting with tolerance. See diagram.	
Power Consumption	Stop: 3W	Rear Position: <0.5W
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 0.3m cable.	
Approval Markings	E24 5891 E4 10R 04-2913	

STOP / REAR POSITION LAMP FUNCTIONS

LED Stop/Rear Position Lamp - Surface Mount

Surface mount LED stop/rear position lamp that is designed with an ultra wide visibility optic for significantly improved side visibility. Featuring a low profile, ultra durable Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Optic appears clear until illuminated.

Ultra slim height of only 11mm. Lamp shown active.

Part Number	2DA 980 887-311	12 VOLT
	2DA 980 887-411	24 VOLT
Mounting	Suitable for horizontal and vertical mounting with tolerance. See diagrams.	
Power Consumption	3W	
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E24 0087 E4 10R 04-2910	

LED Auxiliary Stop Lamp - Surface Mount

Surface mount LED auxiliary stop lamp that is designed with an ultra wide visibility optic for significantly improved side visibility. Featuring a low profile, ultra durable Grilamid® nylon lens for extreme impact, UV, chemical and stress resistance. Optic appears clear until illuminated.

Ultra slim height of only 11mm. Lamp shown active.

MOUNTING DIAGRAMS

Approval Markings	E24 5869		

LED Daytime Running Lamp - Surface Mount

ECE certified LED Daytime Running Lamp with clear Grilamid® lens. Complete with mounting screws and screw caps. Kit contains 2 LED lamps and a changeover relay.

Designed to light the road at night without causing glare to other road users.

Designed to increase the visibility (conspicuity) of your vehicle during daytime.

LED DRL/PO Control Unit

A control unit that dims the light output of LED daytime running lamps to front position/park function level.

Part Number	5DF 980 816-001	12 VOLT
	5DF 980 816-501	24 VOLT
Requirement	One unit is required per pair of LED daytime running lamps.

EuroLED Stop/Rear Position Lamp

Low profile round LED stop/rear position lamp with single LED and red lens. The use of precision optics enable a single high intensity LED to be used for the first time in a commercial vehicle lamp, resulting in low power consumption.

Part Number	2SB 959 821-601	BLACK COVER
	2SB 959 821-611	WHITE COVER
Mounting	Two hole surface mount with mounting bushes supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	Stop: 2.5W Rear position: 0.5W	
Protection	Reverse polarity and 1500 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E4 10208 E4 10R 04-2894	

EuroLED Rear Direction Indicator Lamp

Low profile round LED rear direction indicator lamp with single LED and amber lens.

Part Number	2BA 959 822-601	BLACK COVER
	2BA 959 822-611	WHITE COVER
Power Consumption	2.5W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Approval Markings	E4 10208 E4 10R 04-2742 ISO 13207-1	
Other specifications as per P/N 2SB 959 821-6xx. Lamp compatible with 12V DC and 24V DC HCS units.		

EuroLED Stop/Rear Position Lamp - 24 Volt

Low profile LED stop/rear position lamp featuring 24 LEDs, Enhanced Definition Technology (EDT) and Ultra Wide Visibility Optic for significantly improved side visibility.

Part Number	2SB 959 020-601	BLACK COVER
	2SB 959 020-611	WHITE COVER
Mounting	Two hole surface mount with mounting bushes supplied.	
Voltage	24V DC	
Power Consumption	Stop: 5W Rear position: 1W	
Protection	Reverse polarity and transient spike circuit protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E4 10208 E4 10R 04-2896	

ECE APPROVED LED LAMPS

EuroLED Rear Direction Indicator Lamp - 24 Volt

Low profile LED rear direction indicator lamp featuring 24 LEDs and Ultra Wide Visibility Optic for significantly improved side visibility.

Part Number	2BA 959 021-601	BLACK COVER
	2BA 959 021-611	WHITE COVER
Mounting	Two hole surface mount with mounting bushes supplied.	
Voltage	24V DC	
Power Consumption	5W	
Protection	Reverse polarity and transient spike circuit protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E4 10208 E4 10R 04-2896	

ECE APPROVED LED LAMPS

EuroLED Rear Fog Lamp

Low profile round LED rear fog lamp with single LED and clear lens. Optic appears clear until illuminated.

Part Number	2NE 959 821-201	BLACK COVER
	2NE 959 821-211	WHITE COVER
Mounting	Two hole surface mount with mounting bushes supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	4W	
Protection	Reverse polarity and 1500 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E4 10208 E4 10R 04-2894	

Fog lamp lens is clear when not active.

EuroLED Reversing Lamp

Low profile round LED reversing lamp with single LED and clear lens.

Part Number	2ZR 959 820-601	BLACK COVER
	2ZR 959 820-611	WHITE COVER
Power Consumption	2.5W	
Approval Markings	E4 10208 E4 10R 04-2894	

Other specifications as per P/N 2NE 959 821-2xx.

ECE APPROVED LED LAMPS

DuraLED Stop/Rear Position Lamp

LED stop/rear position lamp featuring 24 LEDs and Enhanced Definition Technology (EDT) for trucks, buses, caravans and trailers.

Other specifications as per P/N 2SB 980 606-xxx. Lamp compatible with 12V DC and 24V DC HCS units.			

DuraLED Reversing Lamp

LED reversing lamp featuring 24 LEDs for trucks, buses, caravans and trailers.

2ZR 980 605-201

Part Number	WHITE ENDS	CHARCOAL ENDS	
	2ZR 980 605-001	2ZR 980 605-201	
2ZR 980 605-501	2ZR 980 605-701	VERTICAL MOUNT	
Power Consumption	4W		
Approval Markings	E24 5850		E4 10R 04-2891
Other specifications as per P/N 2SB 980 606-xxx. Reversing lamp is not designed for continuous use.			

DuraLED Combi Stop/Rear Position/Rear Direction Indicator/Reversing Lamp

LED stop, rear position, rear direction indicator and reversing lamp. Modern clear lens design with black mounting base. Low power consumption and long life equates to economical running costs. Ideal for small trucks and utes.

Part Number	2SK 980 603-503	HIGH IMPACT ACRYLIC LENS
	2SK 980 603-552	GRILAMID® LENS
Mounting	Suitable for horizontal mounting only. Two hole surface mount with mounting bushes supplied.	
Voltage	Multivolt for optimum brightness in 12 and 24 volt systems.	
Power Consumption	Stop: 5W Rear position: 1W	Rear direction indicator: 4W Reverse: 3W
Protection	Reverse polarity and transient spike circuit protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	E24 5870 E24 10R 04-0958

ECE APPROVED LED LAMPS

DuraLED Combi-S Stop/Rear Position/Rear Direction Indicator/Reversing Lamp - 24 Volt

LED combination lamp featuring modern clear lens design. Low power consumption and long life equates to economical running costs. Ideal for 24V DC commercial vehicles. Optic appears clear until illuminated.

Ultra slim height of only 25mm.

Part Number	2SK 980 613-501		
Mounting	Two hole surface mount with mounting bushes supplied. Suitable for horizontal mounting.		
Voltage	24V DC		
Power Consumption	Stop: Rear position:	3W 1W	Rear direction indicator: Reverse: 3W 3W
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)		
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.		
Approval Markings	E24 5894	E4 10R 04-2912	ISO 13207-1
Lamp only compatible with 24V DC HCS units.			

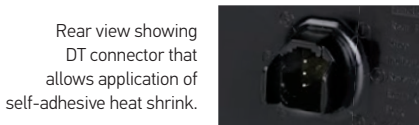

COMBI-S LAMP FUNCTIONS

ECE APPROVED LED LAMPS

Part Number	2SD 980 613-211		
Mounting	Two hole surface mount with mounting bushes supplied. Suitable for horizontal or vertical mounting.		
Voltage	Multivolt for optimum brightness in 12 and 24 volt systems.		
Power Consumption	Stop:	5W	
	Rear position:	1W	
	Rear direction indicator:	5W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)		
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.		
Approval Markings	E24 5883	E4 10R 04-2901	ISO 13207-1

Lamp only compatible with 24V DC HCS units.

Ultra slim height of only 25mm.

ECE APPROVED LED LAMPS

DuraLED Combi-S Stop/Rear Position/Rear Direction Indicator Lamp - Heavy Duty

LED combination lamp featuring Ultra Wide Visibility Optics for significantly improved side visibility and Enhanced Definition Technology (EDT). Suitable for commercial vehicles and boat trailers. Shockproof and fully sealed to withstand water submersion and high-pressure washing. Optic appears clear until illuminated.

Part Number	2SD 980 602-211		
Mounting	Two hole surface mount with mounting bushes supplied. Suitable for horizontal or vertical mounting.		
Voltage	Multivolt for optimum brightness in 12 and 24 volt systems.		
Power Consumption	Stop:	5W	
	Rear position:	1W	
	Rear direction indicator:	5W	
	Night:	1W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)		
Approval Markings	E24 5883	E4 10R 04-2901	ISO 13207-1

Lamp only compatible with 24V DC HCS units.

DuraLED Combi-S Stop/Rear Position/Rear Direction Indicator Lamp with DT Connector and Night Light - Heavy Duty

LED combination lamp featuring Ultra Wide Visibility Optics for significantly improved side visibility and Enhanced Definition Technology (EDT). Night light function allows illumination of the rear position lamp independently from the remaining marker lamps on the vehicle, resulting in low power consumption. Suitable for commercial and boat trailers. Shockproof and fully sealed to withstand water submersion and high-pressure washing. Optic appears clear until illuminated.

Rear view showing DT connector that allows application of self-adhesive heat shrink.

ECE APPROVED LED LAMPS

DuraLED Combi-R Stop/Rear Position/Rear Direction Indicator Lamp with Retro Reflector

LED combination lamp with 34cm² red retro reflector which features Enhanced Definition Technology (EDT). Suitable for light commercial and boat trailers. Shockproof and fully sealed to withstand water submersion and high-pressure washing.

Ultra slim height of only 25mm.

Part Number	2VA 980 710-061		
Mounting	Two hole surface mount with mounting bushes supplied. Suitable for horizontal mounting.		
Voltage	Multivolt for optimum brightness in 12 and 24 volt systems.		
Power Consumption	Stop:	4W	
	Rear position:	1W	
	Rear direction indicator:	4W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)		
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.		
Approval Markings	E24 5882	E4 10R 04-2900

ECE APPROVED LED LAMPS

Part Number	2SD 959 050-401		
Mounting	Suitable for horizontal or vertical mounting. Two hole surface mount with mounting bushes supplied.		
Voltage	Multivolt for optimum brightness at input voltages from 8 to 28 volts.		
Power Consumption	Stop:	5W	
	Rear position:	1.5W	
	Rear indicator:	3W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)		
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.		
Approval Markings	E4 10176	E4 10R 04-2734	ISO 13207-1
Lamp compatible with 12V DC and 24V DC HCS units.			

DuraLED Combi Stop/Rear Position/Rear Direction Indicator Lamp

LED combination lamp, featuring Ultra Wide Visibility Optics, HCS technology and Enhanced Definition Technology (EDT). Suitable for light commercial and boat trailers. Shockproof and fully sealed to withstand water submersion and high-pressure washing. Optic appears clear until illuminated.

Part Number	2SD 959 050-001		
Mounting	Suitable for horizontal mounting only. Two hole surface mount with mounting bushes supplied.		
Power Consumption	Stop:	6W	
	Rear position:	1W	
	Rear indicator:	5W	
Cable Length	Pre-wired with 6m of sheathed multi-core cable.		
Approval Markings	E4 10176	E4 10R 04-2895	
Other specifications as per P/N 2SD 959 050-401.			

DuraLED Combi Stop/Rear Position/Rear Direction Indicator Lamp

LED combination lamp, featuring Ultra Wide Visibility Optics and Enhanced Definition Technology (EDT). Suitable for light commercial and boat trailers. Shockproof and fully sealed to withstand water submersion and high-pressure washing. Optic appears clear until illuminated.

Part Number	2VB 959 050-821		
Kit contents:	Each trailer lamp pack contains: 2 x 2SD 959 050-401 Combination stop/rear position and rear direction indicator lamp 2 x 2KA 959 640-601 LED number plate lamp 2 x 8RA 002 020-001 Red retro reflector

	8RA 002 020-001	E17 02346	

DuraLED Trailer Lamp Pack

A Fit and Forget solution for trailers or caravans.

ECE APPROVED LED LAMPS

Stop/Rear Position/Indicator Lamp

LED stop, rear position and rear indicator lamp with 18cm² red retro reflector. Modern clear lens design with black mounting base. Low power consumption and long life equates to economical running costs. Convenient mounting base with multiple fixing points allow easy fitment to most trailers/vehicles. The lamp is fully sealed against dust and moisture ingress. Optic appears clear until illuminated.

Part Number	2VA 980 720-001	2VA 980 720-007 (Pack of 18)
Mounting	Suitable for horizontal or vertical mounting. Surface mount, choice of mounting holes. Lamp clips into mounting base.	
Voltage	Multivolt for optimum brightness at input voltages from 12 to 24 volts.	
Power Consumption	Stop: 2W Rear position: 1W Rear direction indicator: 2W	
Protection	Reverse polarity and transient spike circuit protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning)	
Cable Length	Pre-wired with 0.5m of sheathed multi-core cable.	
Approval Markings	E24 5860 E4 10R 05-3262	
Other cable lengths available on request.		

TRAILER LAMP FUNCTIONS

Stop/Rear Position/Indicator Lamp with Number Plate Function

As per P/N 2VA 980 720-00x with number plate function.

Part Number	2VB 980 720-401	2VB 980 720-407 (Pack of 18)
	2VB 980 720-501	2VB 980 720-507 (Pack of 18)
Mounting	Two lamps required for ECE compliance when mounted on either side of number plate. Contact HELLA for any other configuration.	
Power Consumption	Stop: 2W Rear position/number plate: 1W Rear direction indicator: 2W	
Other specifications as per P/N 2VA 980 720-0xx.		

TRAILER LAMP FUNCTIONS

110mm Round LED Front Direction Indicator/Position Lamp - Clear Lens

Low profile LED front direction indicator/ position lamp (category 1) specifically designed for commercial transport applications. Features high-intensity LEDs and high impact acrylic lens for superior light output and impact resistance.

Part Number	2BE 959 932-161	CHROME BASE
	2BE 959 932-151	BLACK BASE
	2BE 959 932-131	MODULE

Mounting	Mounting only with lens engraving "TOP" located correctly.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	Front direction: 3W	Front position: <1W
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 200mm of cable.	
Approval Markings	E24 5851	E4 10R 04-2915

Chrome base image and diagram shown. Pendant mount is also available. Lamp compatible with 12V DC and 24V DC HCS units.

2BE 959 932-161

Lamp shown active

110mm Round LED Front Direction Indicator Lamp - Clear Lens

Low profile LED front direction indicator lamp (category 1) specifically designed for commercial transport applications.

Part Number	2BA 959 932-081	CHROME BASE
	2BA 959 932-071	BLACK BASE
	2BA 959 932-051	MODULE

Power Consumption	3W		
Approval Markings	E24 0023	E4 10R 04-2915	ISO 13207-1

Other specifications as per P/N 2BE 959 932-1xx. Black base image and diagram shown. Pendant mount also available. Lamp compatible with 12V DC and 24V DC HCS units.

2BA 959 932-071

110mm Round LED Front Direction Indicator Lamp - Amber Lens

Low profile LED front direction indicator lamp (category 1) specifically designed for commercial transport applications.

Part Number	2BA 959 932-041	CHROME BASE
	2BA 959 932-031	BLACK BASE
	2BA 959 932-011	MODULE

Power Consumption	3W		
Approval Markings	E24 0023	E4 10R 04-2915	ISO 13207-1

Other specifications as per P/N 2BE 959 932-1xx. Module image and diagram shown. Pendant mount is also available. Lamp compatible with 12V DC and 24V DC HCS units.

2BA 959 932-011

ECE APPROVED LED LAMPS

110mm Round LED Rear Direction Indicator Lamp - Clear Lens

Low profile LED rear direction indicator lamp (category 2a) specifically designed for commercial transport applications. Features high-intensity LEDs and high impact acrylic lens for superior light output and impact resistance.

2BA 959 932-581

2BA 959 932-571

Part Number	2BA 959 932-581	CHROME BASE
	2BA 959 932-571	BLACK BASE
	2BA 959 932-551	MODULE

Mounting	Mounting only with lens engraving "TOP" located correctly.		
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.		
Power Consumption	3W		
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)		
Cable Length	Pre-wired with 200mm of cable.		
Approval Markings	E24 0023	E4 10R 04-2915	ISO 13207-1

Chrome and black base image and diagram shown. Pendant mount is also available.
Lamp compatible with 12V DC and 24V DC HCS units.

110mm Round LED Rear Direction Indicator Lamp - Amber Lens

Low profile LED rear direction indicator lamp (category 2a) specifically designed for commercial transport applications. Features high-intensity LEDs and high impact acrylic lens for superior light output and impact resistance.

2BA 959 932-511

Part Number	2BA 959 932-541	CHROME BASE
	2BA 959 932-531	BLACK BASE
	2BA 959 932-511	MODULE

Mounting	Mounting only with lens engraving "TOP" located correctly.		
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.		
Power Consumption	3W		
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)		
Cable Length	Pre-wired with 200mm of cable.		
Approval Markings	E24 0023	E4 10R 04-2915	ISO 13207-1

Module image and diagram shown. Pendant mount is also available.
Lamp compatible with 12V DC and 24V DC HCS units.

LED Number Plate Lamp

White LED number plate lamp.

Two lamps required for ECE compliance when mounted on either side of number plate. Three lamps required for ECE compliance when mounted above the number plate.

ECE APPROVED LED LAMPS

LED Front Position/End Outline Lamp

Recess mount white front position or front end outline (FEOL) LED lamp.

Part Number	2PF 959 590-202 (Pack of 2)	2PF 959 590-207 (Pack of 30)	500MM CABLE
	2PF 959 590-212 (Pack of 2)	2PF 959 590-217 (Pack of 10)	5M CABLE
Mounting	Suitable for horizontal or vertical mounting.		
Voltage	Multivolt for optimum brightness at input voltage from 8 to 28 volts.		
Power Consumption	<1W		
Protection	Reverse polarity protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)		
Cable Length	2PF 959 590-20x 2PF 959 590-21x	Pre-wired with 500mm of sheathed multi-core cable. Pre-wired with 5m of sheathed multi-core cable.	
Approval Markings	Ⓔ24 0054	Ⓔ4 10R 04-2911	

LED Rear Position/End Outline Lamp

Recess mount red rear end outline (REOL) or rear position LED lamp.

Part Number	2XA 959 790-401 (Pack of 2)	2XA 959 790-407 (Pack of 30)	500MM CABLE
	2XA 959 790-411 (Pack of 2)	2XA 959 790-417 (Pack of 10)	5M CABLE
Mounting	Suitable for horizontal or vertical mounting.		
Voltage	Multivolt for optimum brightness at input voltage from 8 to 28 volts.		
Power Consumption	<1W		
Protection	Reverse polarity protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)		
Cable Length	2XA 959 790-40x 2XA 959 790-41x	Pre-wired with 500mm of sheathed multi-core cable. Pre-wired with 5m of sheathed multi-core cable.	
Approval Markings	Ⓔ4 02 7597	Ⓔ4 10R 04-2906	

LED Side Marker Lamp

Recess mount amber and clear SM1 side marker LED lamp.

2PS 959 788-102

Part Number	2PS 959 788-002 (Pack of 2)	2PS 959 788-007 (Pack of 30)	AMBER LENS
	2PS 959 788-102 (Pack of 2)	2PS 959 788-107 (Pack of 30)	CLEAR LENS
Mounting	Suitable for horizontal mounting only.		
Voltage	Multivolt for optimum brightness at input voltage from 8 to 28 volts.		
Power Consumption	<1W		
Protection	Reverse polarity protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)		
Cable Length	Pre-wired with 500mm of sheathed multi-core cable.		
Approval Markings	Ⓔ24 0004	Ⓔ4 10R 04-2911	

ECE APPROVED LED LAMPS

Part Number	12 VOLT	24 VOLT	CLEAR LENS
	2DA 959 071-077	2DA 959 071-277	
2DA 959 071-577	2DA 959 071-777		RED LENS
		2DA 959 071-757 (Wide Rim)	
Mounting	Suitable for horizontal mounting only. Two hole recess mount.		
Power Consumption	2W		
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning)		
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.		
Approval Markings	EA 02 7547	SAE U3 97 DOT	
CCC marked versions are available upon request.			

LED Spoiler Centre High Mount Stop Lamp

Spoiler or exterior mounted 12 LED centre high mount stop lamp, available with a red or clear lens. Pack of 10 lamps.

2DA 959 071-577

2DA 959 071-757 (Wide rim)

Wide rim diagram shown.

Part Number	2DA 959 580-551	CLEAR LENS
	2DA 959 580-151	RED LENS
Mounting	Suitable for horizontal mounting only.	
Voltage	12V DC	
Power Consumption	<3W	
Protection	Reverse polarity protection.	
Cable Length	Pre-wired with 3.5m of cable.	
Approval Markings	EA 02 7587	SAE U3 02 DOT

LED Spoiler Centre High Mount Stop Lamp - 12 Volt

Spoiler mounted 12 LED centre high mount stop lamp, available with a red or clear high impact acrylic lens.

2DA 959 580-551

ECE APPROVED LED LAMPS

ECE APPROVED LED LAMPS

LED Daytime Running Lamps - 0°

Forward facing signal lamps, designed to be mounted on vehicles with flat fronts, or on motorbikes. The lamps are an Easy-Fit installation, usually requiring no extra parts. Once the wiring is complete and the bracket is fitted, the LED lamp easily clips into place and installation is complete.

Part Number	LAMP MODULE		KIT	
		2PT 980 970-021	2PT 980 970-821	12 VOLT
		2PT 980 970-521	2PT 980 970-871	24 VOLT
Mounting	Suitable for horizontal mounting only.			
Power Consumption	2W			
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning).			
Cable Length	Single lamps are pre-wired with 2.5m of sheathed multi-core cable. Lamps supplied with kit are pre-wired with 2.8m of sheathed multi-core cable.			
Spare Parts	8HG 980 975-101 5DF 980 816-051 5DF 980 816-551	Brackets (LH/RH) LED DRL/PO Control Unit (12 Volt) LED DRL/PO Control Unit (24 Volt)		
Approval Markings	E24 5875	SAE P 14 DOT DRL		
Kit Contents	2PT 980 970-821/...-871 2 x LED daytime running lamps 2 x Mounting brackets 6 x Mounting screws 1 x Changeover relay 1 x Instruction sheet 10 x Cable ties 4 x Accessory cable looms			

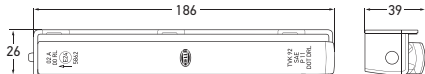

LED Daytime Running Lamps - 15°

A lens angle of 15 degrees allows installation as close as possible to the corners of a modern motor vehicle. These lamps were designed to fit the curved bumpers of modern vehicles to give the look of Original Equipment fitment. The lamps have extremely low power consumption at 2W per lamp and high impact acrylic lenses to protect against impact damage.

Part Number	LAMP MODULE		KIT	
		2PT 980 860-001	2PT 980 860-801	12 VOLT
		2PT 980 860-501	2PT 980 860-851	24 VOLT
Mounting	Suitable for horizontal mounting only.			
Power Consumption	2W			
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning).			
Cable Length	Single lamps are pre-wired with 2.5m of sheathed multi-core cable. Lamps supplied with kit are pre-wired with 2.8m of sheathed multi-core cable.			
Spare Parts	8HG 980 864-101 5DF 980 816-001 5DF 980 816-501	Brackets (LH/RH) LED DRL/PO Control Unit (12 Volt) LED DRL/PO Control Unit (24 Volt)

LED Daytime Running Lamps - 30°

A lens angle of 30 degrees allows installation as close as possible to the corners of a modern motor vehicle. These lamps were designed to fit the curved bumpers of modern vehicles to give the look of Original Equipment fitment. The lamps have extremely low power consumption at 2W per lamp and high impact acrylic lenses to protect against impact damage.

ECE APPROVED LED LAMPS

LED DRL/PO Control Unit

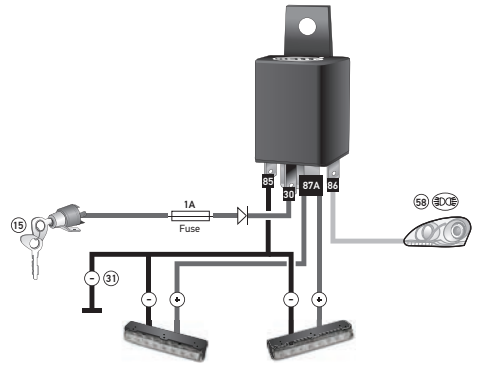

A control unit that dims the light output of LED daytime running lamps to front position/park function level.

Part Number	12 VOLT	24 VOLT	
	5DF 980 816-001	5DF 980 816-501	5DF 980 816-551
5DF 980 816-051	5DF 980 816-551		0°

Requirement: One unit is required per pair of LED daytime running lamps.

EuroLED Stop/Tail/Rear Turn Signal Lamp

Low profile LED stop/tail/turn signal lamps with single LED. The use of precision optics enable a single high intensity LED to be used for the first time in a commercial vehicle lamp, resulting in low power consumption.

Part Number	2SB 959 821-301	BLACK COVER
	2SB 959 821-311	WHITE COVER
Mounting	Two hole surface mount with mounting bushes supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	Stop/Rear turn: 2.5W Tail: 0.5W	
Protection	Reverse polarity and 1500 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	SAE S2 T2 I6 05 DOT	

EuroLED Reversing Lamp

Low profile LED reversing lamp with single LED and clear lens.

Part Number	2ZR 959 820-201	BLACK COVER
	2ZR 959 820-211	WHITE COVER
Power Consumption	2.5W	
Approval Markings	SAE R 05 DOT	

Other specifications as per P/N 2SB 959 821-3xx.

110mm Round LED Stop/Tail/Rear Turn Signal Lamp

LED lamps for commercial transport, buses, caravans and trailers. Featuring low power consumption and Multivolt circuitry ensuring full light output from 9 to 33 volts.

2SB 959 931-801

Part Number	2SB 959 931-841	CHROME BASE
	2SB 959 931-831	BLACK BASE
	2SB 959 931-801	MODULE
Mounting	Mounting only with lens engraving "TOP" located correctly.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	Stop/Rear turn: 3W	Tail: 1W
Protection	Reverse polarity and 1500 watt Transient Voltage Suppressor (TVS) Sealed against dust and water ingress.	
Cable Length	Pre-wired with 200mm of cable.	
Approval Markings	SAE I6 S2 T2 06 DOT	

Module image and diagram shown.

SAE COMPLIANT LED LAMPS

110mm Round LED Front Turn Signal Lamp

Low profile LED front turn signal lamp specifically designed for commercial transport applications. Features high-intensity LEDs and high impact acrylic lens for superior light output and impact resistance.

Part Number	2BA 959 932-421	CHROME BASE
	2BA 959 932-411	BLACK BASE
	2BA 959 932-401	MODULE

Mounting	Mounting only with lens engraving "TOP" located correctly.
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.
Power Consumption	4W
Protection	Reverse polarity and 1500 watt Transient Voltage Suppressor (TVS) Sealed against dust and water ingress.
Cable Length	Pre-wired with 200mm of cable.
Approval Markings	SAE I6 08 DOT

Clear lens or pendant mount is also available. Module image and diagram shown.

2BA 959 932-401

SAE COMPLIANT LED LAMPS

110mm Round LED Rear Turn Signal Lamp

Low profile LED rear turn signal lamp specifically designed for commercial transport applications.

Part Number	2BA 959 932-841	CHROME BASE
	2BA 959 932-831	BLACK BASE
	2BA 959 932-801	MODULE

Power Consumption	3W
Approval Markings	SAE I6 06 DOT

Other specifications as per P/N 2BA 959 932-4xx. Black base image and diagram shown.

2BA 959 932-831

110mm Round LED Reversing Lamp

Low profile LED reversing lamp specifically designed for commercial transport applications.

Part Number	2ZR 959 930-841	CHROME BASE
	2ZR 959 930-831	BLACK BASE
	2ZR 959 930-801	MODULE

Power Consumption	5W
Approval Markings	SAE R 06 DOT

Other specifications as per P/N 2BA 959 932-4xx. Chrome base image and diagram shown. Reversing lamp is not designed for continuous use.

2ZR 959 930-841

DuraLED Stop/Tail/Rear Turn Signal Lamp

Durable rear lamps for trucks, buses, caravans and trailers, featuring polycarbonate lens, low power consumption and Multivolt circuitry ensuring full light output from 9 to 33 volts. The lamps are fully sealed against dust and moisture.

Part Number	2SB 959 060-301	2SB 959 060-307 (Pack of 4)
Mounting	Suitable for horizontal or vertical mounting. Two hole surface mount with mounting bushes supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	Stop/Rear turn: <8W Tail: 2W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	SAE S2 T2 I6 99 DOT	

SAE COMPLIANT LED LAMPS

DuraLED Rear Turn Signal Lamp

Durable rear lamps for trucks, buses, caravans and trailers, featuring polycarbonate lens, low power consumption and Multivolt circuitry ensuring full light output from 9 to 33 volts. The lamps are fully sealed against dust and moisture.

Part Number	2BA 959 070-301	2BA 959 070-307 (Pack of 4)
Mounting	Suitable for horizontal or vertical mounting. Two hole surface mount with mounting bushes supplied.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	<8W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	SAE I6 99 DOT	

SAE COMPLIANT LED LAMPS

DuraLED Stop/Tail/Rear Turn Signal Lamp with Deutsch Connector - 12 Volt

Durable rear lamps for trucks, buses, caravans and trailers, featuring polycarbonate lens and low power consumption. The lamps are fully sealed against dust and moisture.

Part Number	2SB 959 060-331	2SB 959 060-337 (Pack of 12)
Mounting	Suitable for horizontal or vertical mounting. Two hole surface mount with mounting bushes supplied.	
Voltage	12V DC	
Power Consumption	Stop/Rear turn: <8W Tail: 2W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	180mm cable terminated with a Deutsch connector (part number DTM04-3P)	
Approval Markings	SAE S2 T2 I6 99 DOT	

Deutsch connector

SAE COMPLIANT LED LAMPS

DuraLED Rear Turn Signal Lamp with Deutsch Connector - 12 Volt

Durable rear lamps for trucks, buses, caravans and trailers, featuring polycarbonate lens and low power consumption. The lamps are fully sealed against dust and moisture.

Part Number	2BA 959 070-331	2BA 959 070-337 (Pack of 12)
Mounting	Suitable for horizontal or vertical mounting. Two hole surface mount with mounting bushes supplied.	
Voltage	12V DC	
Power Consumption	<8W	
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS) IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	180mm cable terminated with a Deutsch connector (part number DTM04-2P)	
Approval Markings	SAE I6 99 DOT	

Deutsch connector

**DuraLED Surface Mount
Side Marker, Clearance and
Identification Lamp**

Surface mount side marker, clearance and identification lamp with clear, high impact acrylic lens. Pack of 16 lamps.

2PS 959 660-407

Part Number	2PS 959 660-207	AMBER
	2PS 959 660-407	RED
Mounting	Suitable for horizontal mounting only.	
Voltage	Multivolt for optimum brightness at input voltage from 8 to 28 volts.	
Power Consumption	<1W	
Protection	Reverse polarity protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)	
Cable Length	Pre-wired with 500mm of sheathed multi-core cable.	
Approval Markings	SAE P2 P3 99 DOT	
Spare Parts	9BG 959 565-007	Black shroud
	9BG 959 565-017	White shroud
	9BG 959 565-037	Red shroud
	9BG 959 565-047	Yellow shroud
	9BG 959 565-057	Green shroud
	9BG 959 565-067	Blue shroud
	9BG 959 565-077	Amber shroud
	9BG 959 565-407	Chrome plated shroud

Coloured shroud - Pack of 4

	2XA 959 657-207	2XA 959 657-307	RED LENS
Mounting	Suitable for horizontal mounting.		
Power Consumption	<1W		
Protection	Reverse polarity protection. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)		
Cable Length	Pre-wired with 500mm of sheathed multi-core cable.		
Approval Markings	SAE P3 04 DOT		

LED Rear Clearance Side Marker and Identification Lamp

Recess mount, red, rear clearance side marker and identification lamp featuring a red or clear lens in high impact acrylic. Lamps are fully sealed against dust and moisture ingress. Pack of 30 lamps.

2XA 959 657-207

LED Spoiler Centre High Mount Stop Lamp

Spoiler or exterior mounted 12 LED centre high mount stop lamp, available with a red or clear lens. Pack of 10 lamps.

2DA 959 071-577

2DA 959 071-757 (Wide rim)

Wide rim diagram shown.

Part Number	12 VOLT	24 VOLT	CLEAR LENS
	2DA 959 071-077	2DA 959 071-277	
2DA 959 071-577	2DA 959 071-777		RED LENS
		2DA 959 071-757 (Wide Rim)	
Mounting	Suitable for horizontal mounting only. Two hole recess mount.		
Power Consumption	2W		
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning)		
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.		
Approval Markings	E4 02 7547 SAE U3 97 DOT		
CCC marked versions are available upon request.			

LED Spoiler Centre High Mount Stop Lamp - 12 Volt

Spoiler mounted 12 LED centre high mount stop lamp, available with a red or clear high impact acrylic lens.

2DA 959 580-551

Part Number	2DA 959 580-151	RED LENS
	2DA 959 580-551	
Mounting	Suitable for horizontal mounting only.	
Voltage	12V DC	
Power Consumption	<3W	
Protection	Reverse polarity protection.	
Cable Length	Pre-wired with 3.5m of cable.	
Approval Markings	E4 02 7587 SAE U3 02 DOT	

SAE COMPLIANT LED LAMPS

LED Spoiler Centre High Mount Stop Lamp - 12 Volt

Spoiler mounted 12 LED centre high mount stop lamp, available with a red or clear polycarbonate lens.

Part Number	2DA 959 474-xx7	RED LENS
Mounting	Suitable for horizontal mounting only.	
Voltage	12V DC	
Power Consumption	<3W	
Protection	Reverse polarity protection.	
Cable Length	Cable lengths available on request.	
Approval Markings	SAE U2 U3 98 DOT	
Please contact your local HELLA representative for further details about these lamps.		

SAE COMPLIANT LED LAMPS

LED Daytime Running Lamps - 0°

Forward facing signal lamps, designed to be mounted on vehicles with flat fronts, or on motorbikes. The lamps are an Easy-Fit installation, usually requiring no extra parts. Once the wiring is complete and the bracket is fitted, the LED lamp easily clips into place and installation is complete.

Part Number	LAMP MODULE		KIT	
		2PT 980 970-021	2PT 980 970-821	12 VOLT
		2PT 980 970-521	2PT 980 970-871	24 VOLT
Mounting	Suitable for horizontal mounting only.			
Power Consumption	2W			
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning).			
Cable Length	Single lamps are pre-wired with 2.5m of sheathed multi-core cable. Lamps supplied with kit are pre-wired with 2.8m of sheathed multi-core cable.			
Spare Parts	8HG 980 875-101 5DF 980 816-051 5DF 980 816-551	Brackets (LH/RH) LED DRL/PO Control Unit (12 Volt) LED DRL/PO Control Unit (24 Volt)		
Approval Markings	E24 5875	SAE P 14 DOT DRL		
Kit Contents	2PT 980 970-821/...-871 2 x LED daytime running lamps 2 x Mounting brackets 6 x Mounting screws 1 x Changeover relay 1 x Instruction sheet 10 x Cable ties 4 x Accessory cable looms			

LED Daytime Running Lamps - 15°

A lens angle of 15 degrees allows installation as close as possible to the corners of a modern motor vehicle. These lamps were designed to fit the curved bumpers of modern vehicles to give the look of Original Equipment fitment. The lamps have extremely low power consumption at 2W per lamp and high impact acrylic lenses to protect against impact damage.

Part Number	LAMP MODULE		KIT	
		2PT 980 860-001	2PT 980 860-801	12 VOLT
		2PT 980 860-501	2PT 980 860-851	24 VOLT
Mounting	Suitable for horizontal mounting only.			
Power Consumption	2W			
Protection	Reverse polarity protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high pressure/steam jet cleaning).			
Cable Length	Single lamps are pre-wired with 2.5m of sheathed multi-core cable. Lamps supplied with kit are pre-wired with 2.8m of sheathed multi-core cable.

LED 360° Multi-flash Warning Lamp

Multi-purpose LED 360° warning lamp with clear Grilamid® lens, available in four signal colours and white. This range of warning lamps has 10 programmable flash modes, and can be synchronised to flash alternately or in unison.

Part Number	2XD 980 911-001 (White)	2XD 980 911-201 (Green)	BLACK HOUSING	
	2XD 980 911-401 (Red)	2XD 980 911-601 (Amber)		
	2XD 980 911-701 (Blue)			
	2XD 980 911-011 (White)			WHITE HOUSING
	2XD 980 911-241 (Green)			GREEN HOUSING
	2XD 980 911-441 (Red)			RED HOUSING
	2XD 980 911-641 (Amber)			AMBER HOUSING
	2XD 980 911-741 (Blue)			BLUE HOUSING

Mounting	Suitable for upright mounting with three point mount.
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.
Power Consumption	5W continuous (less in flashing modes)
Protection	Reverse polarity, spike and over voltage protection. IP 67 (Protection against dust and temporary water immersion)
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.
Approval Markings	Ⓔ4 10R 04-2914

The above lamps are not ECE compliant.

LED Work Lamps

LED HypaLUME.....	72
AS3000 Work Lamp.....	73
LED BL350 Work Lamp.....	74 - 75
DuraLED Work Lamps.....	76 - 79

**LED HypaLUME 48V DC
RFCommSafe Flood Light**

The 48V DC RFCommSafe HypaLUME has been designed for applications where high performance LED lighting is required. 56 high power LEDs produce an output of some 28,000 lumens while only consuming 300 Watts at 48V DC. The lights have a colour temperature of 5700K to provide a work environment that is the optimal balance between fatigue avoidance and high alertness. High performance Grilamid lenses protect the interior of the lamp from impact and environmental damage. The premium aluminium housing is corrosion resistant with a non-stick and easy to clean surface coating. The built-in soft start feature eliminates a high in-rush current at start up.

Part Number	1GJ 011 872-221	CLOSE RANGE
	1GJ 011 872-231	LONG RANGE
	1GJ 011 872-241	FLOOD

Mounting	Upright or pendant.
Voltage	Optimum brightness at input voltages from 46 to 53 volts.
Power Consumption	300 Watt @ 48V DC input
Operating Temperature Range	-40°C to +50°C
Max. Light Output	28,000 lumen
Protection	Reverse polarity and voltage spike protection. IP 6K9K (Fully sealed against dust and high-pressure/steam jet cleaning)
Input Voltage <39V DC	Lamp will shutdown
Input Voltage of 40 to 46V DC	The outer LEDs on each side of the lamp will be turned OFF to ensure that the remaining LEDs are still operating at target current.
Input Voltage of 53 to 55V DC	Light output will be limited to 70% output level to protect the lamp.
Input Voltage of 55 to 60V DC	Light output will be limited to 40% output level to protect the lamp.
Input Voltage >60V DC	Lamp will shutdown.
Tolerance to Generator Induced Voltage Ripple	A maximum peak to peak voltage of 6.2V DC. Generator must be adjusted so that the lowest point of the ripple is 45V DC.
Dimming Levels (Controlled through PIN 4)	Five light output levels: 100%, 70%, 40%, 20%, 10%
Soft Ramp-up/ Soft Ramp-down (Controlled through PIN 3)	The light output is increased in 5% steps. Each step takes 200 ms to complete (100% brightness in 4 seconds).
Temperature Protection	If the lamp temperature rises above 85°C, the light output level will reduce by 1 level. When the lamp temperature reduces below 80°C the light output level will increase to previous set level.
Connection	4 Pin Deutsch connector
Accessory	8KB 958 304-001 4 Pin Deutsch plug and 1m sheathed cable.
Approval Markings	CE FC

LED BL350 Work Lamp

The BL350 LED Work Lamp incorporates the latest technology to offer a powerful, durable lighting solution for a multitude of applications. Featuring energy efficient Multivolt technology, this Work Lamp will appeal to applications where energy efficiency and reliability are a must. These lamps offer a formidable net light output of 2200 lumens. Designed with Fit and Forget durability in mind, the BL350 LED Work Lamp features a highly impact-resistant lens made of Grilamid®, a crystal clear polyamide with superior tolerance to chemical and long term harsh UV exposure, as well as a technologically advanced thermally conductive non-metal housing.

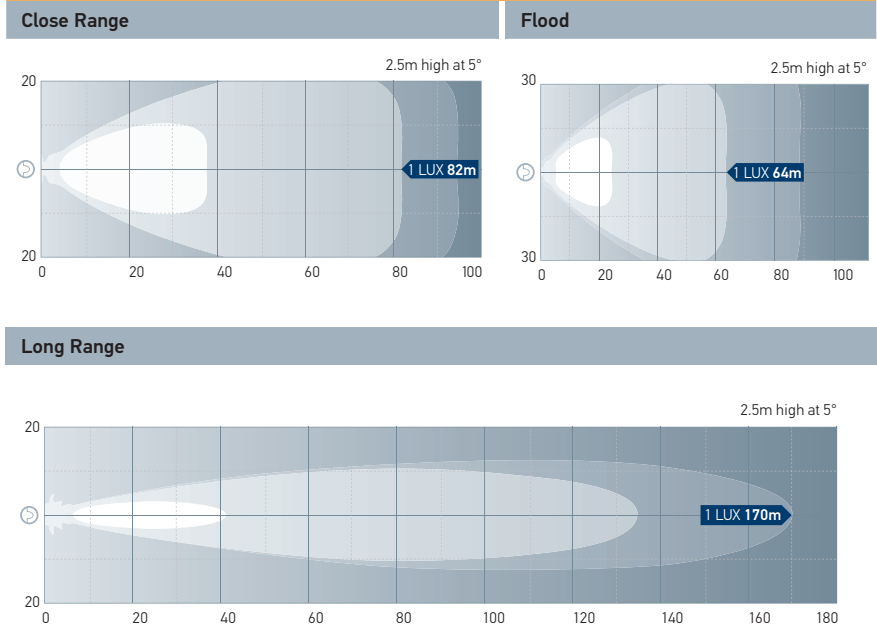

Part Number	1GJ 958 040-551	CLOSE RANGE
	1GJ 958 040-601	LONG RANGE
	1GJ 958 040-501	FLOOD
Mounting	Upright or pendant.	
Voltage	Multivolt for optimum brightness at input voltages from 9 to 33 volts.	
Power Consumption	High intensity mode: 25W Low intensity mode: 5W	
Max. Light Output	2200 lumen	
Protection	Reverse polarity and voltage spike protection. IP 6K7 (Protection against dust and temporary water immersion) IP 6K9K (Protection against dust and high-pressure/steam jet cleaning)	
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.	
Approval Markings	CE	

Mounting brackets allow rotation of work lamp.

Approval Markings	CE		

LED BL350 Work Lamp - 240V AC

The lamp features a revolutionary ceramic based, non corrosive, thermally conductive housing and a high performance impact resistance Grilamid® lens. With those properties, the work lamp is ideal for rough outdoor applications, e.g. pool areas, seaside applications, alley ways, car parks etc.

The waterproof, maintenance free and hermetically sealed lamp is also dimmable, either by 0-10V DC dimming control, resistance or pulse width modulation (not supplied). A flexible, adjustable mounting system ensures easy installation to suit a wide range of applications.

LED Interior/Exterior Awning Strip Lamp - Surface Mount - 15° Spread

LED awning lamp with an ultra slim profile of only 11mm, a heavy duty Grilamid® lens and low power consumption of less than 3W. It comes complete with white as well as charcoal end caps and can be accessorised with a matching 45° mounting bracket to angle the beam further. Combining state of the art technology with sophisticated looks, this new low profile LED Awning Lamp is a lighting solution which will find many applications. The precision optic, with a 15° downwards spread pattern, is designed to cause minimum glare.

ILLUMINATION CHART

2JA 959 073-001/...201

DuraLED 12 White LED Wide Spread Lamp - White Lens

White high brightness LED lamp. Exceptional light output, incorporating high efficacy LEDs. Low power consumption (3 watts) and low heat.

Part Number	2JA 959 700-102
Mounting	Two hole surface mount with mounting bushes supplied.
Voltage	Multivolt for optimum brightness in 12 and 24 volt systems.
Power Consumption	3W
Protection	Reverse polarity and 5000 watt Transient Voltage Suppressor (TVS). Sealed against dust and water ingress.
Cable Length	Pre-wired with 0.5m of sheathed multi-core cable.
Approval Markings	E4 10R 04-2743 CE

DuraLED 20 White LED Wide Spread Lamp - White Lens

White high brightness LED lamp with exceptional light output. Incorporates high efficacy electronics and LEDs resulting in low power consumption (<4 watts) and low heat. The lamp is fully sealed against dust and moisture ingress.

Part Number	2JA 980 608-011
Mounting	Two hole surface mount with mounting bushes supplied.
Voltage	Multivolt for optimum brightness at input voltage from 9 to 33 volts.
Power Consumption	<4W
Protection	Reverse polarity and spike protected. IP 6K6 (Protection against dust and high pressure water jets) IP 6K7 (Protection against dust and temporary water immersion)
Cable Length	Pre-wired with 2.5m of sheathed multi-core cable.
Approval Markings	CE

LED INTERIOR LIGHTING

Square Courtesy Lamps
- Clear Lens

Attractive, energy efficient square LED courtesy lamps for interior and exterior use. Available in nine exciting colours with a range of different rim finishes.

SQUARE COURTESY LAMPS - CLEAR LENS

Mounting	Recess mount, 50mm diameter hole.
Power Consumption	<1W
Protection	Reverse polarity and voltage spike protection. Fully sealed against dust, high-pressure washing and temporary water immersion.
Cable Length	Pre-wired with 120mm of cable.
Pack Size	24 lamps
See page 112 for spare parts and surface mount housings.
