SCANGRIP UNIFORM RECHARGEABLE WORK LIGHT

UNIFORM is a versatile and durable rechargeable LED work light designed for professional users, with both a convenient charging base and USB-C port.

Designed to withstand tough work environments, the upgraded UNIFORM is water and dust (IP65) resistant, with warranty support of Scangrip "For Life" products upgraded to 5 years. It features a turnable hook, a convenient work belt clip, and strong built-in magnet, for flexible positioning during inspection work. The ergonomic grip and compact design make it light easy to handle, and the flexible head can tilt up to 180 degrees.

UNIFORM offers powerful, adjustable light output up to 500 lumens. The top light delivers a focused beam of 175 lumen, ideal for various inspection tasks.

The OPTI Light setting delivers the required illuminance (LUX) in a typical work situation, ensuring optimised light and runtime with a simple touch.

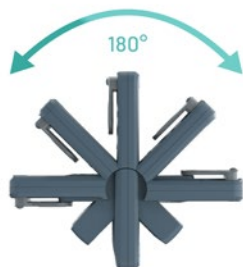

This lamp replaces 035407 LED Inspection Lamp - Uniform.
