Antares 7 Inch Driving Light Kit

## ANTARES 7 INCH DRIVING LIGHT KIT

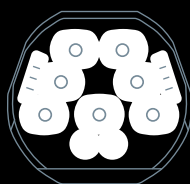

For powerful performance without compromise in a more compact form, the 7" Antares light kit is ideal for smaller vehicles or tighter mounting locations.

HELLA Antares were created in collaboration with the largest automotive brands, and incorporate decades of experience in Australia and New Zealand's harshest driving conditions, creating a composite beam that delivers incredibly constant and impressive output. These driving lights are engineered to illuminate the darkest roads, ensuring your journey is safe and spectacular.

Main beam is disabled when Driving Light Cover is fitted, while still allowing Daytime Running Light to show through.

**Kit Includes:**

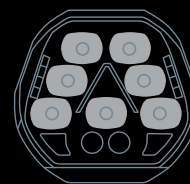

- (2x) Antares 7" Driving Lights with mounting hardware
- (2x) Antares Driving Light Covers
- (2x) Adaptors (H4 & HB3)
- (1x) mounting instructions
- (1x) wiring harness with 12V switch\*

**HIGH  
OUTPUT MODE**

**DAYTIME  
RUNNING LIGHT**

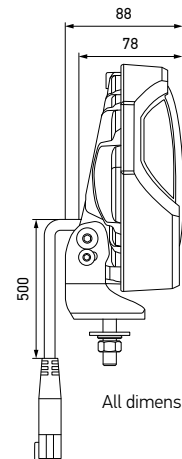

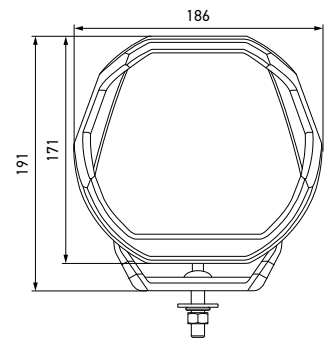

**POSITION  
LIGHT**
